

# Avira SmallBusiness Suite / Avira AntiVir NetWork Bundle

“Freedom to concentrate more on our business”

## Extreme Reliability™ For Desktop PCs, File Servers And Email

### Avira SmallBusiness Suite

Your business might be small, but you still have a big reliance on your computer systems. If you are running between 5 and 100 PCs, chances are you don't have the luxury of spare resources – or spare IT people – if a virus hits your network.

The Avira SmallBusiness Suite allows you to protect all IT components with award-winning Avira virus protection. There is also an additional spam protection feature. Plus the Avira Security Management Center for efficient management.

### Avira AntiVir NetWork Bundle

You need wide ranging Internet protection, 24/7. You need it on every single standalone computer as well as every server. And of course you need a solution that is truly simple to install and manage.

The Avira AntiVir NetWork Bundle is your big solution, without the big price tag. All your desktop PCs and file servers (endpoints) are covered with a single antivirus license, at up to 40% discount.

## What's Included?

Avira SmallBusiness Suite

Avira AntiVir NetWork Bundle

### Avira AntiVir Professional

Freedom from virus, spam and spyware infections on all your desktop PCs, laptops and netbooks.

### Avira AntiVir Server

Maximum-speed antivirus for your file servers. Ideal add on if you run Microsoft Small Business Server.

### Avira Security Management Center

Save time and effort, manage all your network security from one place.

### Avira Internet Update Manager

Automate update downloads to arrive at the most convenient times.

### Cross-platform license

for Windows and Unix/Linux.

### Free updates and upgrades

throughout your license period.

### Avira SmallBusiness Suite Assistant

System setup is simple with our intuitive wizard.

### Avira Exchange + Avira AntiSpam

So only clean, relevant emails make it into your network.

## Why Choose Avira?

---

### Extreme Reliability™

---

#### One solution

Truly integrated for all your Windows or Unix computers, file servers and mail servers, cross-platform malware and spam protection.

#### High performance protection

Powerful proprietary antivirus technology that consistently wins top awards for detection and performance.

#### New dangers neutralised fast

Our in-house virus lab works around the clock to prevent the latest threats.

#### Always on the hunt

Monitors every file access in real-time, even archives and offline VMWare images. Spots spam emails and strips out potentially dangerous content and attachments.

#### Fast updates do not waste bandwidth or workflow

The industry's most compact program updates and virus pattern database files automatically update via the Internet or through the network without system interruption.

### Preserves Your IT Budget

---

#### Big discounts off individual license costs

Plus transparent licensing, with no hidden costs or non-inclusive essential extras.

#### Extremely low administration overhead

"Set and forget" automated workflows, everything on every server managed from one single point.

#### Intuitive operation saves you time, effort and money

No need for expensive training or user education.

### Easy To Configure And Manage

---

#### Stay in control

Administer your whole network from one place using the Avira Security Management Center. Comprehensive notification and reporting functions are built in, integrated scheduler lets you automate routine tasks like updates when it's most convenient.

#### Simple, intuitive new interface

Start actions like updates and scans directly from the Avira Security Management Center.

#### Fast initial set up

Use the configuration wizard for standard installation defaults (Windows only).

#### Easily tweak security levels

For example, you can select archive file types to check, plus adjust the recursion depth when dealing with archives or scanning runtime-packed files.

#### Safely isolate infected and suspicious files

Using Quarantine Management under Windows.

#### All inclusive

Free updates, free upgrades and free Avira Gold Support included with every license during update period.

#### Won't stress your systems

Our fast, resource-saving scanning technology reduces the load on servers, networks or storage drives, so they do last longer.

#### Change platforms for free

Switch to a new or alternative supported operating system and your Avira license moves too, at no extra cost.

## System Requirements

---

Please see the system requirements for the individual products included under your Avira SmallBusiness Suite or Avira AntiVir NetWork Bundle license.

You can buy Avira SmallBusiness Suite or the Avira AntiVir NetWork Bundle from any qualified Avira partner. To find your nearest Avira partner, visit our website, call: +49 7542-500 0 or email [row@avira.com](mailto:row@avira.com)
